Use of the children's playground during the corona crisis

Dear tenants,

The coronavirus is continuing to spread and Berlin is also being affected by the restrictions to public life. We have been monitoring its progress and are taking the situation seriously. We have taken several pre-emptive safety precautions in the hope of reducing the speed at which this pandemic is spreading. For both your and our own protection, we please ask that you observe the following points over the coming weeks:

Owing to the acute risk situation, we please request that you refrain from using this playground.

Provided that there is no official ban on the use of playgrounds in the district the playground is located, we will not prohibit your children from playing there. However, given the rapid progression and our mutual responsibility to make the best possible contribution, we please ask that you no longer use the playground.

As a responsible adult, make sure that the coronavirus does not spread any further.

Should a playground ban or general curfew be issued for the district, we draw your attention to the fact that this ban would also include the use of Gewobag playgrounds for the duration of said ban.

Yours faithfully,

Your Gewobag
